## Technology at work for you

### YOUR POINT OF SALE SOLUTION PARTNER...

The success of your company is directly related to the success of the people who work for you. Raymond Business Solution (RBS) is a line of integrated, adaptable business management solutions that enable your people to make important business decisions with greater confidence. These solutions automate and streamline financial, customer relationship, and supply chain processes in a way that helps you drive business success.

The successful automation of your business process largely depends on choosing the right software solution. Your business software solution has to be powerful, functional and user-friendly. We understand that choosing the right solution partner is every bit as important, that is why we offer a full range of support services.

### TECHNOLOGY CONSULTING PROVIDES A TOTAL END TO END SOLUTION.

#### Raymond Business Solution – Point of Sale (RBS-POS) Features:

- ◆ **RBS-POS is a Point of Sale, Inventory, Accounts Payable and Receivable Solution bundled into one.** The only software in market which handles a First In First Out (FIFO) inventory method. It can also print your own check and voucher with your company's logo.
- ◆ **RBS-POS turns your PC into a cash register.** It does what no ordinary cash register can do: It automatically keeps track of your inventory and customers while you ring up sales.
- ◆ **RBS-POS is bundled with Accounts Payable and Accounts Receivable modules.** For easier management of inventory, sales, purchases and ultimately your business. It can also accept your expenses so you can keep track of your checking account.
- ◆ **RBS-POS helps you serve your customers faster and offer more personalized service.** With the use of graphic user interface, it helps the user give accurate quotes and real time real time availability of your inventory items.
- ◆ **RBS-POS helps you make better decisions.** With the use of various reports such as sales report, purchase report, payment receipt report, disbursement report, stock card, and sales profitability report.
- ◆ **RBS-POS is barcode capable.** Use of Barcode technology to record items will ensure correct item and price and keeps inventory up to date. Reorder system ensures that you will never run out of stocks.
- ◆ **RBS-POS is cost effective,** for items without barcode, you can generate your own barcode using you're own printer without buying expensive barcode printers.
- ◆ **RBS-POS is designed for owners who have multiple branches and outlets,** RBS-POS also has remote access module which allows user to add, delete, edit the item master file remotely and create, edit and delete purchase orders remotely.

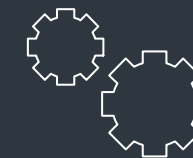

### MULTI-USER CONFIGURATION.

- ◆ Multi-user capable (2-10 workstations in one store) Optimized for Windows 2000 Server or Windows Server 2003 client-server networks, and Windows 2000/XP peer-to-peer networks.
- ◆ Local Area Networking (LAN)
- ◆ LAN card per PC unit
